DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed September 6, 2005 has been submitted for consideration by the Office. It has been placed in the application file and the information referred to therein has been considered.

Allowable Subject Matter

2. Claims 1 and 3-21 are allowed.

3. The following is an examiner's statement of reasons for allowance: This invention deal with a coaxial line comprising an outer conductor and a plurality of insulating material struts intersecting the outer conductor wherein at least two of the insulating material struts each include a conduit in fluid communication with the inner conductor, and a plurality of connections for conducting a coolant through the coaxial line and a plurality of connections (claim 1). The above stated claim limitation, in combination with other claim limitations, is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments filed September 6, 2005 have been fully considered and they are persuasive. Specifically, the applicant's argument that Forsyth fails to teach or suggest the plurality of insulating material struts intersecting the outer conductor wherein each includes a conduit in fluid communication with the inner conductor, is persuasive and therefore the claims have been allowed.

Communication

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Mayo III whose telephone number is (571)-272-1978. The examiner can normally be reached on M-F 8:30am-6:00 pm (alternate Fridays off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on (571) 272-2800 ext 31. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
